

# SPECS Net Monday Night Script

Last Updated:	April 27, 2012
Current Version:	<a href="http://www.specsnet.org/netscript.pdf">http://www.specsnet.org/netscript.pdf</a>
SPECS Net Time:	8:00 PM (2000) local time, every Monday evening
SPECS Net Frequency:	145.270 (-) 100 Hz tone
Send Corrections to:	boardmail <i>big*at*sign specsnet little*period</i> org

## ***Before The Net***

1. Please obtain the current version of the script from the web site location given above as updates occur frequently.
2. Make sure you have a reliable power source for your radio.
3. Obtain a radio check to be sure that you can reach the repeater with a good signal.
4. Have a writing pad & pencils handy to note check-ins, announcements, etc.
5. Remember to pause a moment, after you begin to transmit and before you begin to speak, to allow the repeater (and the net participants' radios) enough time to de-squelch.
6. Remember that the repeater has a 120 second timeout timer (the ***\*\*drop it\*\**** notations in the script are provided to help you avoid the timer during the long passages).
7. Net control advisories appear in the left column while script text appears on the right. Instructions for the net control operator are also italicized. Don't read the italicized text over the air.

### ***\*\*\* Note to the Net Control\*\*\****

Announcements are handled differently in this script. All announcements are held and made at once (rather than at multiple times as in the old script). As Net Control, you need to keep track of these announcements so you do not miss any. There is room in the *Announcements* section of the script where you can write down call signs of those wishing to make announcements. Please look this over and be familiar with it.

DO NOT to use abbreviations, Q-codes, etc. Since the goal of every ham should be to communicate clearly and concisely without using codes, we have made every attempt to remove these from this script. Please help us out and do not insert Q-codes. Thank you in advance.

---

<p><b>Topic and Information for the Net Control Operator</b></p>	<p><b><i>This is the script that you read “on the air”.</i></b>  <i>(Notes to you are in italics like this)</i></p>																						
<p><b>CALL TO ORDER</b></p>	<p>Calling the SPECS net, calling the SPECS net. This is the Southern Peninsula Emergency Communications System weekly net, celebrating over 50 years of weekly net operation. This is a directed net of the Amateur Radio Emergency Service. Stations with emergency traffic may break in at any time. This is &lt;...<b><i>your call sign</i></b>...&gt; net control. My name is &lt;...<b><i>your name</i></b>...&gt; from &lt;...<b><i>your city</i></b>...&gt; ARES.</p> <p>The purpose of the net is to train and maintain a crew of Amateur Radio operators who are ready to furnish communication services in a time of need.</p> <p style="text-align: center;">(**<b><i> drop it </i></b>**) </p> <p>SPECS operates the W6ASH repeaters at 145.27, 224.14, and 440.8 MHz, all requiring 100 Hz tone. The repeaters are not normally linked.</p> <p>New listeners may obtain information about SPECS from our website at <a href="http://www.specsnet.org">www.specsnet.org</a>.</p> <p style="text-align: center;">(**<b><i> drop it </i></b>**) </p>																						
<p><b>RECOGNITION OF OFFICIALS</b></p> <p><i>Record and acknowledge calls. Names likely to be heard:</i></p> <table border="1" data-bbox="94 1066 570 1564"> <tr> <td>K6TT</td> <td>Phil, ARRL Section Mgr</td> </tr> <tr> <td>KE6AGJ</td> <td>Larry, Section Emerg. Coordinator</td> </tr> <tr> <td>KC6SKM</td> <td>Scott, District Emerg. Coordinator</td> </tr> <tr> <td>K6GAC</td> <td>Jerry, SPECS President or others</td> </tr> <tr> <td>KD6SOJ</td> <td>Tom, Los Altos</td> </tr> <tr> <td>W7WPO</td> <td>Ed, Los Altos Hills</td> </tr> <tr> <td>K6GAC</td> <td>Jerry, Mountain View</td> </tr> <tr> <td>KD6WYK</td> <td>Rich, Palo Alto</td> </tr> <tr> <td>WA6ITV</td> <td>Lea, Stanford</td> </tr> <tr> <td>K6RWG</td> <td>Bob, Sunnyvale</td> </tr> <tr> <td>KD6CWM</td> <td>Mark, NASA/Ames</td> </tr> </table>	K6TT	Phil, ARRL Section Mgr	KE6AGJ	Larry, Section Emerg. WA6ITV	Lea, Stanford																						
K6RWG	Bob, Sunnyvale																						
KD6CWM	Mark, NASA/Ames																						
<p><b>Visiting Emergency Coordinators</b></p> <p><i>Acknowledge any check-ins and welcome them to the net.</i></p>	<p>Any visiting Emergency Coordinators may now check in with your call sign, name, the area you represent, and announcement requests.</p> <ul style="list-style-type: none"> <li><input type="checkbox"/> _____</li> <li><input type="checkbox"/> _____</li> </ul>																						

<p><b>ANNOUNCEMENTS</b></p> <p>Use the area to the right to mark announcements that are pending. Handle announcements in the order listed.</p> <p>As Net Control, try to keep these announcements brief. For example, if someone wants to take sign-ups for an event, suggest that they stay on the frequency until after the net.</p>	<p>This is &lt;...<i>your callsign</i>...&gt;, net control. We will now proceed with announcements.</p> <p>So far I have announcements pending from:</p> <ul style="list-style-type: none"> <li><input type="checkbox"/> League Official - K6TT or _____</li> <li><input type="checkbox"/> Dist. and/or Sec. Emergency Coord. _____</li> <li><input type="checkbox"/> SPECS Board Rep. _____ &lt;callsign&gt;</li> <li><input type="checkbox"/> City EC _____</li> <li><input type="checkbox"/> City EC _____</li> </ul> <p>Are there other announcements? If so, please give your call sign only at this time.</p> <ul style="list-style-type: none"> <li><input type="checkbox"/> _____</li> <li><input type="checkbox"/> _____</li> <li><input type="checkbox"/> _____</li> </ul> <p>&lt;Call sign&gt;, please go with your announcement? Are there any questions for &lt;call sign&gt;?</p>
<p><b>NET SCHEDULING</b></p> <p>Rotation order: Sunnyvale Stanford Amateur Radio Club Palo Alto Los Altos Los Altos Hills Mountain View and back to Sunnyvale</p> <p>Wait briefly for an acknowledgement.</p>	<p>We remind &lt;...<i>Next City</i>...&gt; that it is their turn to handle net control duties next month. Is there someone from &lt;Next City&gt; who can acknowledge?</p> <p><i>(Note: This entire section can be omitted on the first and second Monday at Net Control Operator discretion.)</i></p>
<p><b>PACKET CHECK-INS</b></p>	<p>SPECS also supports packet check-ins. Packet check-ins close at the beginning of this net. Instructions for checking in via packet for next week's packet net are available on the SPECS website. Is there a packet count for this week?</p> <p><i>(Acknowledge the packet count and enter the number in the totals area later in this script)</i></p>
<p><b>CITY NETS</b></p> <p>Call for each local net from the following table in order:</p> <p>Do not assume that a local net is not operating just because you did not get a check-in from the city earlier</p> <p><b>Don't call for check-ins from NASA-Ames, even if an EC or AEC checked-in.</b> NASA-Ames does not take check-ins for the SPECS net.</p>	<p>This is &lt;...<i>your call sign</i>...&gt;, Net Control. Check-ins will now be taken through separate nets for each area. Visitors are encouraged to check-in with the regulars in your area, or you can check in here after I call the city nets.</p> <p>Net control Operators for each area will give their local net frequency. When you hear the frequency for your area, go there for your local net. If you cannot reach your local net, you can come back and check-in here.</p> <p>Historical check-in totals can be viewed on our website. Look for the link under the "Monday Night Net" heading.</p> <p>Who will take check-ins for ... &lt;...<i>area from table below</i>...&gt;</p>

	<table border="1"> <thead> <tr> <th>Area to be called</th> <th>(R)=repeater (S)=Simplex</th> </tr> </thead> <tbody> <tr> <td>UHF and 220 repeater</td> <td>440.800 (+) 100Hz tone (R), 224.140 (-) 100Hz tone (R)</td> </tr> <tr> <td>Mountain View</td> <td>146.535 (S)</td> </tr> <tr> <td>Palo Alto and North</td> <td>147.540 (S) 100Hz tone</td> </tr> <tr> <td>Los Altos</td> <td>146.595 (S) 440.875 (+) 100Hz tone (R)</td> </tr> <tr> <td>Los Altos Hills</td> <td>146.745 (-) 110.9Hz tone (R)</td> </tr> <tr> <td>Sunnyvale</td> <td>145.170 (-) 94.8Hz tone (R)</td> </tr> <tr> <td>Stanford</td> <td>440.200 (+) 123Hz tone (R)</td> </tr> </tbody> </table>	Area to be called	(R)=repeater (S)=Simplex	UHF and 220 repeater	440.800 (+) 100Hz tone (R), 224.140 (-) 100Hz tone (R)	Mountain View	146.535 (S)	Palo Alto and North	147.540 (S) 100Hz tone	Los Altos	146.595 (S) 440.875 (+) 100Hz tone (R)	Los Altos Hills	146.745 (-) 110.9Hz tone (R)	Sunnyvale	145.170 (-) 94.8Hz tone (R)	Stanford	440.200 (+) 123Hz tone (R)

<p><b>NET CLOSURE</b></p>	<p>This concludes this weekly meeting of the Southern Peninsula Emergency Communications System main net. More information is available on our web site at <a href="http://www.specsnet.org">www.specsnet.org</a>. The main SPECS net is officially closed and these frequencies returned to normal use. This is &lt;...your call sign...&gt;</p>																						
<p><b>You're Almost Done!!</b></p> <p><i>Please complete the "After Net" steps that are listed below or on the next page.</i></p>																							

## ***After Net Instructions for Net Control***

Please record the check-in numbers reported from each local net. You can do this by doing the following:

- Go to [www.specsnet.org/checkins.php](http://www.specsnet.org/checkins.php) - enter the city totals, your name and call sign and press the “Submit” button. All fields require data. If you enter this information on a Tuesday or later, be sure to change the date back to Monday’s date.

Thank you for giving your time, equipment, and ability to serve as Net Control. Your service makes a significant contribution to SPECS and to ARES/RACES emergency preparedness in the county.

Corrections to the script are most welcome and should be sent by email to the link at the bottom of the first page of the SPECS web site – [www.specsnet.org](http://www.specsnet.org).

**Thank you!**
